Situated just 7 miles east of Hastings, Nebraska, Bunker Hill offers some of the finest upland bird, wild turkey, waterfowl, and whitetail deer hunting available in Nebraska.

With over 2000 acres of prime upland habitat. Bunker Hill offers some of the best pheasant, partridge and quail hunting in the country.

All of our birds are raised in our own hatchery. We have some of the most popular upland game birds in the country. We raise and sell Ring-necked pheasants and Chukar Partridge both wholesale and retail to customers from California to Florida.

Our pheasant and chukar season begins September 1st and continues through March 31st, giving our guests plenty of hunting opportunity. Your favorite hunting companion is always welcome with plenty of kennel space available. Or, if you prefer, our professionaly trained dogs and guides will lead you on your hunt.

We have converted the igloo style bunkers used for manufacturing ammunition by the United States Navy into a unique, historical bunk house. We can accommodate up to 20 visitors comfortably.
